Forecast For Wales
Issued by Met Office Exeter
at 1600 on Thursday 23 Dec 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Cloudy and damp, mist and fog patches in the east.

This Evening and Tonight:
Rather cloudy, particularly in the west. Further east clear spells developing overnight with some patchy mist and fog possible by dawn. Temperatures remaining above freezing. Minimum temperature 4 deg C (39 deg F).

Friday:
Any morning mist lifting and some bright spells developing for a while. However, a band of rain will arrive in the southwest by lunchtime, reaching all parts in the afternoon. Maximum temperature 11 deg C (52 deg F).

Outlook for Saturday to Monday:
Rather cloudy with outbreaks of rain on Christmas Day. Further patchy rain, and a chance of snow over high ground on Boxing Day. Perhaps drier on Monday.
